

Toy Donations:

Each year during the campaign toy donation collection sites are set up throughout the county at various collection points. At these sites, large red collection barrels are made available from Thanksgiving Day until approximately one week before December 25th. Established sites include those noted [here](#). Toy donations should be new, unwrapped toys for infant through young adult (13 and above). Do not waste time wrapping gifts since they will be unwrapped and inspected before being rewrapped and distributed to the supporting food banks or designated distribution organization.
